

Alternative Treatments for Manifestations of Dystopia

Manifestations of Dystopia – Part 2

M. G. "Oggi" Cohen
Identifying Reality for 80 Years

In seeking to Identify Reality, it is this Writer's policy to consider all alternatives that are not observably metaphysically impossible. This approach may give undue time or attention to unlikely scenarios, but it is less likely to reject or overlook the strange but true.

Disclaimer: This Writer claims no Special or Secret Knowledge; and has not Received nor Sought the Imprimatur of any Group or Authority, be it Medical, Political, Religious or Otherwise.

Harms Have Been Done

There is help available, and more is on the way, but more needs to be done. To maintain your quality of life until the treatment options you may need have been developed or discovered, it is vitally important that you keep yourself as healthy as possible.

In [Glorious Health, Concerned for Your Safety, Part 2](#) (July '22), Acupuncturist and Health Coach, Jolinda Rockett, BSN, MAc, offers concepts and suggestions in support of your health and well-being, especially your immune system.

Currently, there is more being learned and revealed about the harms being done to human and other lives on Earth, by the sociopathic and psychopathic denizens of an array of malicious private organizations and governmental agencies, than there is about the development of protocols, therapeutics, nutraceuticals, or anything else that might be healing or mitigating of those harms. It is to be expected that development of cures could not precede identification and understanding of the harms to be cured, but in the current situation it seems that the lag in response time between harms and cures is not entirely normal, but may be being exacerbated by the behavior, goals, and moral turpitude of the purveyors of the harms. This disaster was not an accident. It was carefully planned, and is being perpetuated, with full intention, by evil actors who continue to pursue their malignant goals by dispersing and dispensing poisons under color of law and medicine, whilst waging war using weapons ranging from censorship to intimidation to murder, against honest doctors, journalists, lawyers, and citizens trying to expose, describe, prevent, and find cures for the harms being imposed.

Still, the situation is not without hope. Harms are being identified, and healing agents and protocols are being discovered and developed. Some existing (even old-time) medications are proving to be effective and are being repurposed, though without much help from "Big Pharma", which seems to be enthralled by some other agenda. Fortunately, patents expire, and healing compounds become available for repurposing, and at lower cost.

Caution and Disclaimer: Information provided here is intended to help you access, organize, and evaluate some of the options available to you for prevention and treatment, not to provide medical diagnosis or recommendations. Consult your trusted healthcare professionals about your choices, especially if you are already receiving medications or treatments for these or other conditions.

THOUGHTFUL INFORMATION AND POINTS OF VIEW

Many medical and alternative healthcare providers have shown bravery and responsibility in the face of professional, social, and economic ostracism; and are continuing to work hard to develop treatments and strategies, and to educate the rest of us about the reality of our shared circumstances. Representative work and words of several of these heroes follow:

Dr. Vladimir "Zev" Zelenko (1973-2022)

Dr. Zelenko, developer of the famous "Zelenko Protocol", and his team were among the first in the country to successfully treat thousands of Covid-19 patients in the pre-hospital setting.

(Video 1:04:27)

Dr. Peter McCullough

Dr. McCullough is an academic physician with multiple degrees who specializes in cardiology and epidemiology. He has almost 700 published papers, more than anyone in the entire history of his academic sub-specialty, cardio-nephrology.

A Universal Antidote

Chlorine Dioxide is legal to use in the U.S. as a disinfectant and water treatment. It is not FDA-approved as a therapeutic, though it is a component of many health- and cosmetic-related products. NASA declared it a universal antidote in 1987.

Here's a comprehensive video, with accompanying *Interactive Reference Guidebook* and *Beginner Training Guidebook*, about the history, efficacy, and safety of Chlorine Dioxide:

[The Universal Antidote – The Science and Story of Chlorine Dioxide](#) (1:49:27)

Twin-Oxide® is a commercial-quality packaging of two dry components (powders or tablets), which when mixed with water according to directions, generates highly concentrated pure Chlorine Dioxide. The concentrate from the powders is 3000 ppm. The concentrate from the tablets is 1000 ppm. **The concentrate must be diluted before use, to the strength appropriate for the intended use.** For water purification, "intended use" refers to the degree of contamination of the water to be treated, and the standard of purity to be achieved.

For more info on uses of ClO₂, please refer to the entries for Dr. Andreas Kalcker and Dr. Joe Nieuwsma, below.

Dr. Andreas Kalcker

Dr. Kalcker is a biophysical researcher who has investigated and registered several international patents that deal with the therapeutic use of Chlorine Dioxide for hypoxia, inflammation, infection, sepsis, and other conditions.

Dr. Kalcker's protocols for therapeutic use of Chlorine Dioxide may be found in his book *Forbidden Health* ©2018:

Dr. Joe Nieuwma

Dr. Nieuwma is the CEO and Chief Toxicologist at Superior Toxicology & Wellness, an international scientific consulting firm that he founded. "Dr. Joe" has been active in toxicology research for 30 years.

For more info or to purchase Twin-Oxide[®], I highly recommend the US distributor, Dr. Joe Nieuwma:
